## SPOTTING ERRORS

*Directions* (For the following 5 items):

(i) In this Section a number of sentences is given. The sentences are underlined in three separate parts and each

one is labelled (a), (b), (c). Read each sentence to find out whether there is an error in any underlined part. No sentence has more than one error. When you find an error in any one of the underlined parts (a), (b) or (c), indicate your response on the separate Answer Sheet at the appropriate space. You may feel that there is no error in a sentence. In that case letter (d) will signify a 'No error' response.

(ii) You are to indicate only one response for each item in your Answer Sheet. (If you indicate more than one response, your answer will be considered wrong.) Errors may be in grammar, word usage or idioms. There may be a word missing or there may be a word which should be removed.

(iii) You are **not** required to correct the error. You are required **only** to indicate your response on the Answer Sheet. Examples 'P' and 'Q' have been solved for you.

P. The young child(a) singed(b) a very sweet song.(c)  
No error.(d)

Q. We worked(a) very hard(b) throughout the season.(c)  
No error.(d)

*Explanation:*

In item P, the word 'singed' is wrong. The letter under this part is (b); so (b) is the correct answer. Similarly, for item Q, (d) is the correct answer, as the sentence does not contain any error.

7. If it weren't(a) for you,(b) I wouldn't be alive today.(c) No error.(d)

### COMPREHENSION

Directions (For the following 10 items):

In this Section you have *Three* short passages. After each passage you will find several questions based on the passage. First, read Passage—I, and answer the questions based on it. Then go on to the other passages. You are required to select your answers based on the contents of the passage and opinion of the author only.

Examples 'I' and 'J' are solved for you.

#### PASSAGE

In our approach to life, be it pragmatic or otherwise, a basic fact that confronts us squarely and unmistakably is the

desire for peace, security and happiness. Different forms of life at different levels of existence make up the teeming denizens of this earth of ours. And, no matter whether they belong to the higher groups such as human beings or to the lower groups such as animals, all beings primarily seek peace, comfort and security. Life is as dear to a mute creature as it is to a man. Even the lowliest insect strives for protection against dangers that threaten its life. Just as each one of us wants to live and not to die, so do all other creatures.

I. The author's main point is that:

- (a) different forms of life are found on earth  
(b) different levels of existence are possible in nature  
(c) peace and security are the chief goals of all living beings  
(d) even the weakest creature struggles to preserve its life

J. Which one of the following assumptions or steps is essential in developing the author's position?

- (a) All forms of life have a single overriding goal  
(b) The will to survive of a creature is identified with a desire for peace  
(c) All beings are divided into higher and lower groups  
(d) A parallel is drawn between happiness and life, and pain and death

Explanation:

I. The idea which represents the author's main point is 'peace and security are the chief goals of all living beings', which is response (c). So (c) is the correct answer.

J. The best assumption underlying the passage is 'The will to survive of a creature is identified with a desire for peace', which is response (b). So (b) is the correct answer.

#### PASSAGE—I

I was late bloomer and always envied those people who stood out in high school, because I didn't. I learned early on, though, that it's essential to set yourself apart from the group. Life is one struggle after another to succeed, particularly when you're starting out. If your bio-data is sitting at the bottom of a pile of junk mail, sometimes a distinctive approach will get you noticed, especially if the competition is fierce.

Once, my partner Jerry and I asked the other freelance writers of a TV serial what characters they hated to write for the most. Everybody said the same thing—they disliked writing for the minor characters because they felt that writing for them wouldn't help them get other jobs. Jerry and I decided that we would write scripts for the minor characters because that's what was needed—and we needed to set ourselves apart.

In the first script Jerry and I wrote, a schoolgirl falls in love with a boy in her class. The producers loved the story. And with that one script, Jerry and I were no longer just another comedy-writing team.

41. The author is of the opinion that

- (a) one should be part of the group  
(b) one should be different from others

OBJECTIVE-TYPE QUESTIONS

- (c) it is important to do well in high school  
 (d) one should heed to the advice of the seniors

42. The author had been  
 (a) into advertising business  
 (b) a comedy writer  
 (c) a music director  
 (d) a newsreader

43. According to the author  
 (a) one should be very meticulous in preparing his bio-data  
 (b) competition in the job-market is very fierce  
 (c) One should follow a conservative approach in preparing his bio-data  
 (d) one should try to get noticed by being innovative

44. Jerry and the author wrote scripts for the minor characters

- (a) to realize their creative potential  
 (b) to earn more money  
 (c) to establish a different image  
 (d) because they did not have enough work

PASSAGE-II

Wind power has obvious advantages—it is non-polluting, causes no ecological imbalance, requires no throughput fuel and has extremely low gestation period.

After almost a decade of sporadic growth, wind energy finally seems to be stepping out from shadows of alternative technology into the commercial mainstream, worldwide. Even though, India now has an installed base of just over 1,600 MW. This is nothing compared to countries such as Germany, which meets around 20 per cent of its energy requirements from wind energy.

Wind power offers long-term price stability too. Not only are generation costs of such projects low, the capital expenditure is comparable to fossil fuel-based stations. Wind-power plants have low operating and maintenance costs. Long-term economics work out to be quite favourable for the wind-energy. In fact, it is being seen as a solution to sustainable development. By the end of 2001, the installed wind-power was almost 25,000 MW.

45. Which one of the following is correct?  
 (a) Wind-power plants take a long time to get commissioned.  
 (b) Maintenance cost of wind-power plants is high.  
 (c) Wind-power plants lead to violent vibrations.  
 (d) Wind-power plants require no fuel.
46. Which one of the following is correct?  
 (a) Installation of wind-power plants is resisted by environmentalists.  
 (b) Generation cost of wind-power plants is high.  
 (c) Installation cost of wind-power plants is much higher than that of fossil fuel-based plants.  
 (d) Wind-power is now being commercially harnessed.
47. Which one of the following is correct?  
 (a) In Germany, 25,000 MW of electricity is

- generated by using wind-power.  
 (b) Wind-power plants offer no price stability.  
 (c) Wind-power is economically viable on long-term basis.  
 (d) In America, 20% of the power requirements are met through wind-power.
